Why should you buy an off grid Solar System?

One-stop complete off grid solar system for sale. Special customized system to meet the needs of home owners to achieve 7\*24 hours of power supply. Achieving energy autonomy is an investment with a high rate of return. Your factories, businesses, and farms will have 0 electricity bills for decades.

What is an off grid solar kit?

Experience energy independence with our off grid solar kit, delivering seamless integration of solar panels, combiners, batteries, solar controllers and inverters for reliable power generation in off grid scenarios.

Why should you choose an off-grid solar system kit?

All off-grid solar system kits are pre-built and tested in-house for quality assurance and speedy installation onsite. 1. Solar power generation is safe and reliable and will not be impacted by the energy crisis or unstable fuel market. 2. Maximising your renewable energy sources will minimise ongoing generator costs.

What is a solar energy storage system?

An Energy Storage System powers the base load with solar during the day and stores excess solar energy to power through the evening and night enabling self-consumption, the grid assists in powering peak consumers or on grey days. An off-grid system powers all loads 24/7 based on worst case scenarios as there is no reliance on a grid.
