

# **Which is better 5g base station or communication in Mauritius**

## Overview

---

Does Emtel's 5G network cover Mauritius?

Emtel's 5G network currently covers 60% of the Mauritian population. The company is continuously expanding its 5G coverage and aims to achieve full coverage over Mauritius by the year 2024.

What is Emtel's 5G network?

Emtel's 5G network is the 5th generation mobile network. It offers higher data speeds, up to 1.87Gbps, and ultra-low latency, providing a transformative mobile data browsing experience with quicker downloads and much lower lags.

Is 5G better than 4G?

While 5G offers faster speeds and lower latency than 4G, it also consumes more battery power. This is a common issue with 5G networks worldwide. However, Emtel's 5G network is optimized for battery usage.

Does Emtel's 5G network save battery life?

Emtel's 5G network is already optimized for battery usage. Most 5G phones have a Power Saving mode that automatically switches between 5G and 4G networks when there is no data usage, helping to conserve battery life.
