

# **Wind and Solar Storage Power Station Technology Park**

## Overview

---

Will Tesla's first grid-side energy storage station be built in China?

It will be Tesla's first grid-side energy storage station to be built on the Chinese mainland. Dong Kun, general manager of Tesla China's energy business, said the station, once launched, will participate in electricity spot trading, helping balance peak and off-peak power demand in the local grids and enhance grid stability.

Where is Tesla's gigawatt-hour-scale energy storage station located?

The gigawatt-hour-scale energy storage station is to be located in the Lin-gang Special Area of China (Shanghai) Pilot Free Trade Zone, as per the deal signed by Tesla, the administrative committee of the Lin-gang Special Area, the people's government of Shanghai's Fengxian District, and China Kangfu International Leasing Co., Ltd.

Where is Tesla building a battery storage facility?

Plus Power's Gambit Energy Storage in Angleton, Texas. Tesla has signed its first agreement to build a utility-scale battery storage facility in China, marking a significant step in the U.S. automaker's global energy strategy.

Will Tesla build a battery storage facility in China?

Tesla has signed its first agreement to build a utility-scale battery storage facility in China, marking a significant step in the U.S. automaker's global energy strategy. The deal comes at a time of tense U.S.-China trade relations, which worsened after President Donald Trump imposed sweeping tariffs on Chinese goods— now on pause.
